1. Executive Summary & Key Strategic Insights

1. **Profit Surge** **Nine Dragons Paper (02689.HK) FY Profit Surges 102.62% to RMB 3.581 Billion, Powering Cleanly Out of Cycle Trough:** Asia's premier packaging board titan announced its latest annual results, with shareholder profit doubling from RMB 1.767B to RMB 3.581B. Aided by optimized fiber furnish, the commissioning of upstream captive wood pulp projects, and operating rates rebounding to 91.5%, gross margin per ton expanded by approximately RMB 135/MT, demonstrating formidable counter-cyclical pricing defense.
2. **Ivory Board Recovery** **Ivory Board Four Majors Enforce +RMB 200/MT Price Hike Across Invoicing, Ending Destructive Discounting:** Nine Dragons, Sinar Mas APP, Bo Hui, and Liansheng officially billed price increases of RMB 200/MT effective September 20–25. Food-grade ivory board (FBB) mill quotes rebounded to RMB 4,350–4,550/MT (\$635/MT), driven by pre-holiday confectionery boxes and Singles' Day e-commerce packaging runs, turning industry cash flows positive.
3. **Green Leadership** **Taiwan Paper Majors Exceed NT\$10B in Green Procurement; MOENV Recognizes Cheng Loong and YFY:** The Ministry of Environment honored green procurement leaders. Cheng Loong achieved NT\$7.48B and YFY surpassed NT\$6.3B, while Long Chen advanced carbon governance. Taiwan mills demonstrated how recovered fiber recycling and biomass cogeneration build a resilient, circular economy fortress.
4. **Operational Resilience** **Chung Hwa Pulp (1905) Taitung Mill Recovers Swiftly from Outdoor Wastepaper Fire with Zero Paper Machine Damage:** A September 20 outdoor wastepaper inventory fire caused an estimated NT\$12M in fiber loss, but paper machines, pulp lines, and structures were completely untouched. The mill maintained uninterrupted operations and on-time shipment schedules.
5. **Trade Defense** **US Containerboard Spread Solid at Record \$840; Majors File Anti-Dumping Petition Against Imported Pizza Boxes:** North American containerboard price hikes hold in their fourth week of billing with linerboard at \$975/ST against US OCC at

- \$135/ST. Concurrently, Smurfit Westrock and Pratt Industries petitioned the USITC and DOC for anti-dumping duties on unfairly traded imported corrugated pizza boxes.
- Softwood Momentum** **China Imported NBSK Spot Ticks Up to \$692/MT (RMB 4,915) as Port Stocks Drop for 11th Straight Week:** Port inventories at Qingdao and Changshu fell to 2.086M tonnes. Textbook publishing and festive food packaging ran at peak capacity (operating rates ~70.2%). SHFE bleached softwood pulp futures closed at RMB 4,845/t, maintaining a disciplined cash-futures basis of +RMB 70/t (+USD 10).
 - Spread Equilibrium** **Suzano's Asian Hardwood Hike Solidly Embedded; Softwood-Hardwood Spread Balances at \$65/MT (RMB 460):** Global buyers have formed a firm consensus on hardwood price floors (\$625–\$630/MT). The price spread continues to prevent furnish substitution, maintaining balanced pricing equilibrium across both virgin fiber benchmarks.
 - Regulatory Deadline** **EU PFHxA Ban Countdown Drops to 23 Days; Non-Fluorinated Aqueous Dispersion Barrier Demand Booms:** The EU ban on perfluorohexanoic acid (PFHxA) becomes binding on October 18, 2026. Export supply chains must purge fluorinated grease-resistant barriers, driving rapid uptake of Chung Hwa Pulp's CircuWell and non-PFAS barrier cardboards.
 - Oceania Transition** **Australia's APCO Advances Packaging Covenant Reforms; ANZ Bans Drive Molded Fiber Substitution:** Australia's Packaging Covenant Organisation (APCO) outlined its next phase of packaging reforms to phase out single-use plastics and EPS containers. New Zealand supermarket chains completed 100% conversion to FSC kraft bags and bagasse trays, accelerating international orders.
 - Biomass Cogeneration** **Taiwan Mills Operate at Full Capacity for Peak Packaging Season; Biomass Substitution Locks Steam at NT\$725:** Cheng Loong's 1M MT Vietnam mill operates at full capacity. Circular biomass cogeneration (SRF replacement rate at 47.8%) shields Taiwanese mills from grid tariff volatility and upcoming carbon fees, keeping steam costs at NT\$725/ton (\$22.6).

4. Feedstock Market Dynamics: Wood Pulp & Recovered Fiber

Following Suzano's \$20/MT hardwood pulp hike, market sentiment across Asia solidified rapidly. Nordic and North American softwood producers, including Metsa Board and Canfor, reinforced list price discipline, driving imported NBSK spot quotes to USD 692/ton (RMB 4,915/ton). Port stocks at Qingdao and Changshu dropped for the eleventh consecutive week to 2.086M tonnes, underscoring resilient paper mill intake.

In recovered fiber, US domestic box collection remained well balanced, with export FAS quotes holding steady at \$135–\$137/short ton on the West Coast and \$137–\$139/short ton on the East Coast. In China, Grade A OCC mill gate prices ticked up slightly to RMB 2,020/ton as packing yards showed reluctance to sell ahead of the festive holidays.

5. Finished Products: Containerboard, Cultural & Specialty Papers

In containerboard, North American producers PCA, Smurfit Westrock, and International Paper successfully billed their third round of increases into week 4, maintaining the raw material spread at \$840/short ton. In response to surging low-priced imports, Smurfit Westrock and Pratt Industries petitioned the USITC and DOC for anti-dumping duties on corrugated pizza boxes.

In ivory board and specialty grades, Nine Dragons, APP, Bo Hui, and Liansheng enforced a +RMB 200/MT price increase effective September 20–25, lifting FBB spot quotes to RMB 4,350–4,550/MT (\$635/MT). Concurrently, demand for aqueous barrier coated board and certified PFAS-free grease-resistant paper surged sharply in response to China GB 4806.10 and EU PFHxA compliance deadlines.

6. Corporate Strategy & Global Expansion

Nine Dragons Paper (02689.HK) reported an outstanding full-year net profit of RMB 3.581B (+102.62% YoY), demonstrating that the paper manufacturing giant has conclusively exited the multi-year cycle trough. Operating rates returned above 91.5%, while unit gross profit expanded by approximately RMB 135/MT.

In Chile and Brazil, CMPC's 25-year federal land concession for the \$370M Terminal Rio Grande do Sul deep-water port moves toward construction, ensuring 4.6M MT/yr dedicated capacity. In Taiwan, Cheng Loong led green procurement rankings at NT\$7.48B, YFY reached NT\$6.3B, and Chung Hwa Pulp's Taitung mill resumed normal operations promptly following an outdoor wastepaper fire that left paper machines completely undamaged.

7. Global Regulations & ESG Transformation

- **EU PFHxA Ban Final Countdown (23 Days Remaining):** Effective 2026-10-18, perfluorohexanoic acid and related substances will be prohibited across EU food packaging. Supply chains have entered the final sprint to purge fluorinated barriers.
- **EU PPWR 44 Days in Force:** European port authorities have commenced systematic sampling of food-contact paper packaging for total fluorine (<50 ppm) and verified Design for Recycling (DfR) declarations.
- **China GB 4806.10-2025 Enacted (Day 23):** Paper coatings are officially governed under mandatory food safety standards, driving rapid market substitution away from fluorinated chemicals toward water-based bio-barrier coatings.
- **EU EUDR Deforestation Regulation Countdown (96 Days Remaining):** Wood pulp, paperboard, and cartons entering the EU require plot-level GPS coordinates and Due Diligence Statements (DDS).
- **Taiwan 2026 Carbon Fee Implementation:** Large industrial emitters prepare inaugural greenhouse gas filings. Cheng Loong, YFY, and Long Chen expand SRF biomass fuels (>47.8% replacement) and waste heat recovery to secure preferential fee discounts.

8. Strategic Implications for Taiwan Paper Industry

1. **Feedstock Sourcing:** The NT Dollar remains firm at 32.040, preserving foreign exchange purchasing power. Mills should take advantage of NBSK at USD 692/MT and US OCC at USD 135/short ton to lock in Q4 and early 2027 safety reserves.
2. **Containerboard Exporters:** North American Sept 1 hikes widen global virgin-to-recycled spreads to \$840/short ton. Cheng Loong's 1M MT capacity in Vietnam and Long Chen's high capacity utilization position both to expand H2 revenues and margins.
3. **Specialty & Cultural Paper Mills:** Chung Hwa Pulp's non-plastic barrier board directly fulfills GB 4806.10 and EU PPWR mandates. Capacity discipline supports premium price realization in domestic and export markets.
4. **Packaging Converters & Boxmakers:** Faced with mill price hikes and raw spread records, boxmakers must stand firm in passing price adjustments to clients to protect operating margins.
5. **Brand Export Manufacturers:** Must conduct comprehensive supply chain audits for PFAS-free verification and EUDR compliance to prevent cargo impoundment at European and international ports.

9. Value Chain Transmission Mechanism

- **Pulp Price Transmission:** Suzano Asian hike +\$20/MT realized → Imported NBSK climbs to \$692/MT → Woodfree and ivory board price hikes (+RMB 200/MT) → Printing and packaging cartons repriced (transmission lag: 3–5 weeks).

- **Containerboard Transmission:** North American containerboard +\$80~140/short ton fully invoiced → Asian imported kraftliner rises +\$30~50/MT → Taiwan & Southeast Asian corrugated carton prices adjust +5~10% (transmission lag: 2–4 weeks).
- **Regulatory Substitution:** EU PFHxA 23-day countdown + China GB 4806.10 in force → Legacy fluorinated/PE paperboards phased out → Aqueous bio-based barrier paperboard market share accelerates past 53%.
